PROFILE

An energetic and goal driven individual with a clear logical mind-set and a perception of practically approaching towards problem solving and facing challenges. Ambitiously drive to see the projects from the inception to completion while looking forward to further my experiences with different social backgrounds. My career goal is to become a responsible and resourceful person for fast-growing organizations, by adding value to organization through leadership and teamwork.

EDUCATION

SLIIT University
| Malabe
2024 - Present

Bsc.(Hons) in Information Technology Specializing in Software Engineering

Currently specializing in Software Engineering, focusing on building scalable and efficient software solutions.

ICBT Campus
2024 - 2025

Diploma in International Diploma in Information Technology

Completed a comprehensive foundation in IT, gaining a broad understanding of computing principles and information systems.

Isipathana College
| Colombo 05
2020 - 2023

G.C.E. Advanced Level Examination

Faced A/Ls from Commerce Stream & has one 'B' pass & two 'S' passes

PROJECTS

SLIIT University
| Malabe
2026

SpotOn (Web Based Vehicle Parking Management System)

- A web application made using standard html/css and java backend.
- 2nd Year 2nd Semester project for the ITP Module.

SLIIT University
| Malabe
2025

Ceylon Electric Identity Department (Java Based Web Application)

GitHub: <https://github.com/kavindurishan/C.E.I.D.>

- A web application made using standard html/css and java backend.
- 2nd Year 1st Semester project for the Software Engineering Module.

SLIIT University
| Malabe
2024

Online Movie Ticket Reservation Platform

GitHub: [Movie-Ticket-Booking-System](#)

- A web application made using html/css and java backend.
- 1st Year 2nd Semester project for the Object Oriented Programming Module.

SLIIT University
| Malabe
2024

Automated Cloth Rack Protecting System

- Developed and demonstrated an ESP32-powered automated cloth-rack prototype using sensors and Arduino coding.
- 1st Year 1st Semester project for the Fundamentals of Computing module.

CERTIFICATES & COURSES

Introduction to Front End Development This course provided a foundational understanding of modern web development, focusing on how browsers render code to create interactive user interfaces.	Meta Coursera 2025
Web Design for Beginners I gained practical knowledge in UI/UX principles and structured layout creation, focusing on building accessible and visually appealing websites.	University of Moratuwa 2025
Python for Beginners This certification covered the core syntax and logical structures of Python, establishing a strong base for algorithmic problem-solving in software engineering.	University of Moratuwa 2025
Python for Beginners Through this additional training, I reinforced my programming logic and hands-on coding skills, ensuring a versatile grasp of Python’s practical applications.	DP Education 2025

EXTRA CURRICULAR ACTIVITIES

Committee Member Faculty of Computing Student Community SLIIT	2026/2027
Sub-Committee Member Faculty of Computing Student Community SLIIT	2025/2026
Batch Representative Faculty of Computing SLIIT	2024 - Present
Prefect, Steward, Asst.Steward & Training Steward Prefects’ Guild of Isipathana College Colombo 05	2019 - 2024
President Commerce Society of Isipathana College Colombo 05	2022/2023
Vice-President Red Cross Society of Isipathana College Colombo 05	2022/2023
Secretary Drama Society of Isipathana College Colombo 05	2022/2023

SKILLS

Professional	Technical
• Leadership • Team Work & Collabaration • Management Skills • Critical Thinking • Creativity • Problem Solving	• MS Office: Word, Excel, Powerpoint • Programming Languages : Python, Java • Web Development: HTML, CSS, JS • Tools: Github • Databases: SQL, MongoDB
